

June 2017

Magellan Rx Standard and Precision Formulary Alert

Magellan Rx Management is dedicated to giving you the latest information and resources to help you understand formulary changes that impact your members.

New Generics Available

We are pleased to let you know that new generics are now available and have been added to your Magellan Rx Commercial formulary. Generic medications provide members more affordable options and can help control health care costs while maintaining quality and safety.

The brands marked with an asterisk* will be raised to a higher tier on **June 1st 2017**, encouraging members to use lower cost generics. To find out if there is a generic equivalent for other brand-name drugs, please visit our website at www.magellanrx.com. If you have any questions regarding these changes, please feel free to contact your Account Manager or Sales Representative.
