Dear GatorCare Member,

Enclosed please find an important notice from GatorCare Health Management Corporation (“GatorCare”) about your prescription drug coverage and Medicare.

GatorCare would also like to remind you when you visit a healthcare provider, please present both your GatorCare member ID card and your Medicare card at the time of service. If you are on Medicare and actively employed (or covered by your spouse’s actively employed plan), your GatorCare plan will be primary and Medicare is your secondary coverage. However, there are some circumstances where Medicare may be primary. If you are unclear about the order of liability, you may contact the Florida Blue customer service number on the back of your member ID card (1-800-664-5295).

Thank you.

GatorCare

**Important Notice from GatorCare Health Management Corporation
("GatorCare")
About Your Prescription Drug Coverage and Medicare**

This notice applies ONLY to individuals who are over age 65 and on Medicare or approaching age 65 and eligible for Medicare or receiving Medicare Disability benefits. Please disregard this notice if you are not in one of these categories of individuals.

Please read this notice carefully and keep it where you can find it. This notice has information about your current prescription drug coverage with GatorCare and about your options under Medicare's prescription drug coverage. This information can help you decide whether or not you want to join a Medicare drug plan. If you are considering joining, you should compare your current coverage, including which drugs are covered at what cost, with the coverage and costs of the plans offering Medicare prescription drug coverage in your area. Information about where you can get help to make decisions about your prescription drug coverage is at the end of this notice.

There are two important things you need to know about your current coverage and Medicare's prescription drug coverage:

1. Medicare prescription drug coverage became available in 2006 to everyone with Medicare. You can get this coverage if you join a Medicare Prescription Drug Plan or join a Medicare Advantage Plan (like an HMO or PPO) that offers prescription drug coverage. All Medicare drug plans provide at least a standard level of coverage set by Medicare. Some plans may also offer more coverage for a higher monthly premium.
2. MagellanRx, which is GatorCare's current pharmacy benefit manager, has determined that the prescription drug coverage offered by GatorCare is, on average for all plan participants, expected to pay out as much as standard Medicare prescription drug coverage pays and is therefore considered Creditable Coverage. Because your existing coverage is Creditable Coverage, you can keep this coverage and not pay a higher premium (a penalty) if you later decide to join a Medicare drug plan.

When Can You Join A Medicare Drug Plan?

You can join a Medicare drug plan when you first become eligible for Medicare and each year from October 15th to December 7th.

However, if you lose your current creditable prescription drug coverage, through no fault of your own, you will also be eligible for a two (2) month Special Enrollment Period (SEP) to join a Medicare drug plan.

What Happens To Your Current Coverage If You Decide to Join A Medicare Drug Plan?

If you decide to join a Medicare drug plan, your current GatorCare coverage will be affected. You can keep this coverage if you elect to join a Medicare drug plan and your health plan will coordinate your benefits with Medicare for drug coverage. If you would like more information about the prescription drug plan provisions and options that Medicare eligible individuals may have when they become eligible for Medicare prescription drug coverage, see pages 7-9 of the CMS Disclosure of Creditable Coverage to Medicare Part D Eligible Individuals Guidance located at <http://www.cms.hhs.gov/CreditableCoverage/>.

If you do decide to join a Medicare drug plan and drop your current GatorCare coverage, be aware that you and your dependents may not be able to get this coverage back.

When Will You Pay A Higher Premium (Penalty) To Join A Medicare Drug Plan?

You should also know that if you drop or lose your current GatorCare coverage and do not join a Medicare drug plan within 63 continuous days after your current coverage ends, you may pay a higher premium (a penalty).

If you go 63 continuous days or longer without creditable prescription drug coverage, your monthly premium may go up by at least 1% of the Medicare base beneficiary premium per month for every month that you did not have that coverage. For example, if you go nineteen months without creditable coverage, your premium may consistently be at least 19% higher than the Medicare base beneficiary premium. You may have to pay this higher premium (a penalty) as long as you have Medicare prescription drug coverage. In addition, you may have to wait until the following October to join.
