Walker Tracker

1. Click on Add an Entry

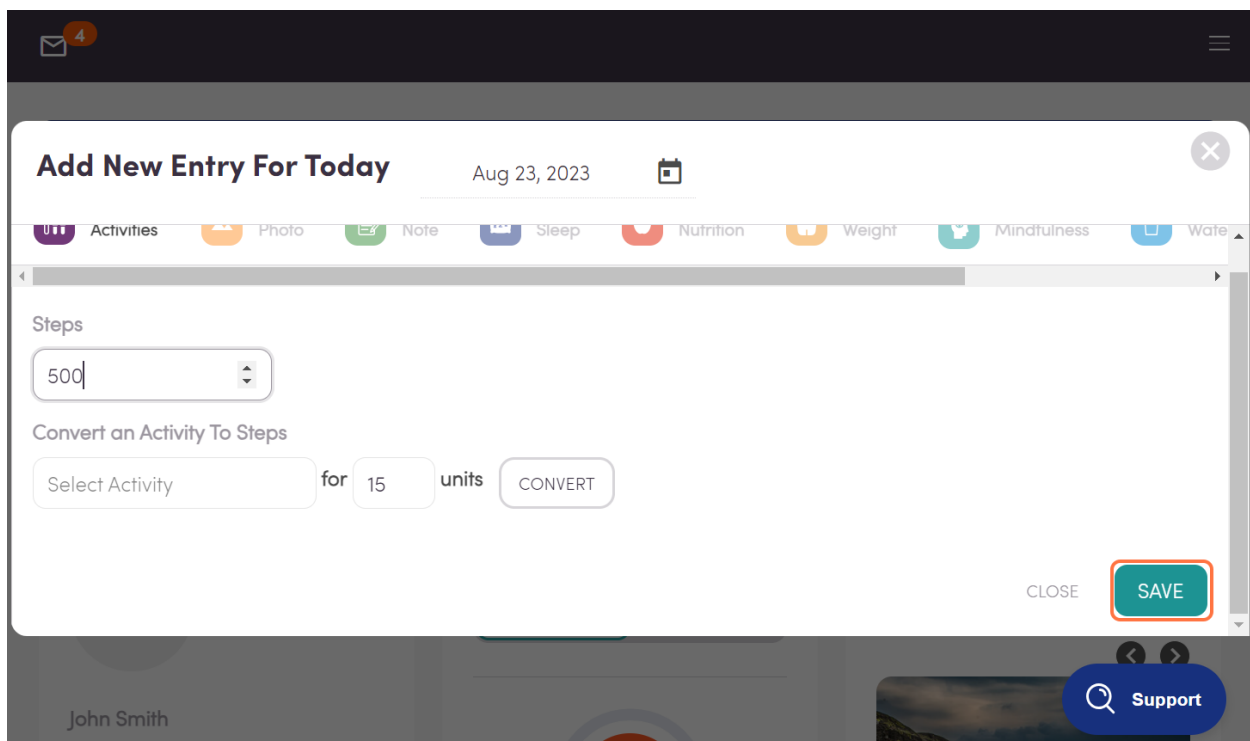

The screenshot displays the Walker Tracker user interface. At the top, there is a dark navigation bar with a notification icon (4) and a menu icon. Below this, a dark blue notification banner reads: "Please confirm your email address: JohnSmith@Smith.com [Resend Email](#)". A light gray informational box follows, stating: "If you have a wireless pedometer you can connect it by clicking the 'connect a device' button below your profile picture/avatar. Your program may allow you to start tracking steps right away but only steps accumulated during the dates of your challenge will count towards your progress in the challenge! Check out the Help page for guides and FAQs or visit support.walkertracker.com." The main content area is titled "My Dashboard" and features a green "Add An Entry" button in the top right corner. The dashboard is divided into three sections: "Profile" (showing a placeholder for John Smith), "My Progress" (with tabs for "Steps" and "Points"), and "Challenges" (with a "View All" link and a "Featured (3)" section). A "Support" button is visible in the bottom right corner of the challenges section.

2. Add your steps

3. Click on SAVE

4. Verify your steps were counted
